Lawson Requisition Center What's New and Different

June 2011

For information on Lawson Requisition Center, contact your Lawson Client Account Executive.

Lawson Requisition Center

- ▶ Lawson Requisition Center is a new, easy to use, web-based requisitioning solution that can be set up by customers to provide a streamlined way to automate, expedite, track and simplify the requisitioning process, while increasing compliance with contracts and company standards to drive savings.
- ▶ Key capabilities
 - Web-based requisitioning
 - *Mobile requisitioning (planned – see Statement of Direction)**
 - Requisition templates
 - Online requisition status tracking
 - Self-service receiving
 - Approvals online or via ProcessFlow
 - Works with Lawson Procurement Punchout and Procurement

* Any statements made about Mobile Requisitions in this presentation are subject to the disclaimers included in the Lawson Requisition Center Statement of Direction.

What's New and Different in Requisition Center?

- ▶ Requisition Center will enable access to and use of Mobile Requisitions, a planned set of features that enable requisitioning on mobile devices such as iPhone™, iPad™ and Android™ devices.
- ▶ Requisition Center immediately creates and saves requisition lines as items are added to a requisition. Lines are validated for errors as they are added.
- ▶ With new features in Requisition Center, requisition processing no longer uses or refers to “orders” as previously referred to in connection with Orders, My Cart, and Shopping List. With these new features, you will see different but easy to understand language when using Requisition Center for processing requisitions.
- ▶ Requisition Center supports drill down within Categories to the Class level, not the Commodity level.
- ▶ Requisition Center requires that an items ordered through punchout must be on a separate requisition from items from the item master or specials/service. In addition, Requisition Center will create separate requisitions for each punchout vendor for items requisitioned using punchout.
- ▶ When using Procurement Punchout with Requisition Center, users will see a disclaimer regarding use of the vendor's site. In addition, the Lawson logo and frame at the top of the browser will no longer appear.

Planned: Mobile Requisitions

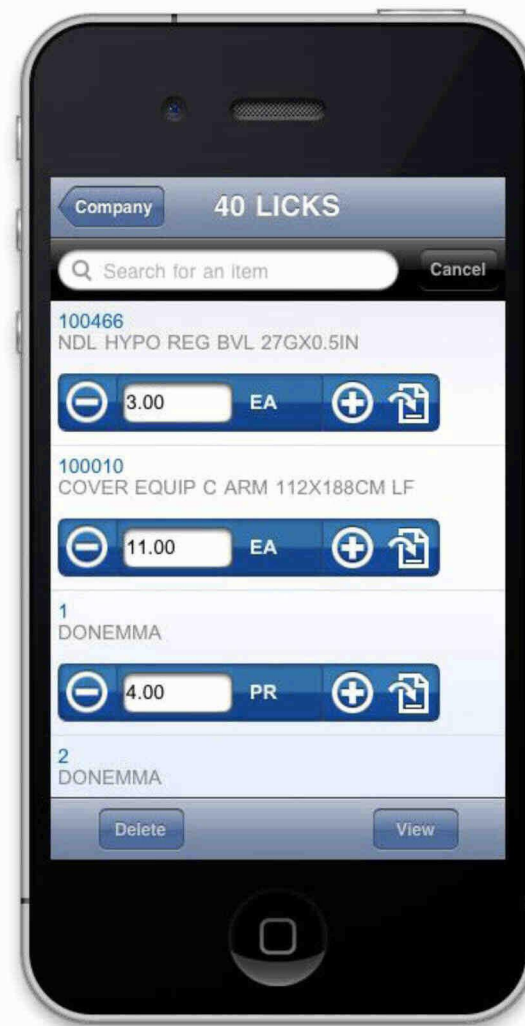

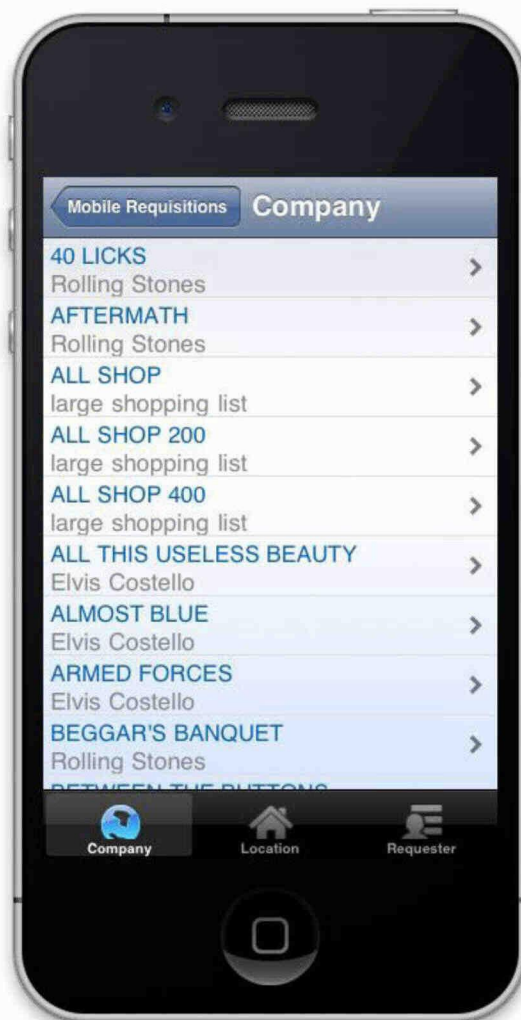

See Statement of Direction for more details.

Categories: Drill Down Segment → Family → Class

The screenshot displays the Lawson Requisition Center interface in a Windows Internet Explorer browser. The main window shows the 'Categories' section with a search bar and a list of categories: **bracelets** (with sub-items **Items**) and **necklaces** (with sub-items **Items**). The 'Requisition Lines' table is empty, showing '--- No Items ---'.

An inset window shows the 'UNSPSC Product Codes (IC16.1)' screen. The left sidebar lists various services: **Home**, **Inbasket ProcessFlow Integrator**, **User Level Work** (Stephanie Lim), **Finance Self-Service**, **Customer Self-Service**, **Vendor Self-Service**, **P-Card Self-Service**, **ProcessFlow**, **Requisition Center**, **Utilities**, **All Templates**, **Location Templates**, **Requester Templates**, and **Line Status**.

The main area of the inset window shows the 'Item Group' as 'Jill de Ville'. The 'Segment' is '01', 'Family' is '01', 'Class' is '01', and 'Commodity' is '00'. The 'Description Level' is '3' and 'Class'. The 'Description' and 'Short Description' are both 'bracelets'. The 'Status' is 'Y' and 'Code is used for an item'.

At the bottom right of the inset window, a summary table shows:

Total Quantity	Total Cost	Number of Lines
0	0	0

Buttons for 'New', 'Clear', 'Print', and 'Release' are visible at the bottom of the inset window.

Punchout Items Will Be on Separate Requisitions

The screenshot displays the Lawson Requisition Center interface in a Windows Internet Explorer browser. The main window shows the 'Special / Service' requisition form for Requisition: 2558. The form includes fields for Item, Description, Item Type (Special), Quantity (1), UOM (EA), Cost (1.5), and various other requisition details. A 'Requisition Lines' table is visible on the right, showing one line for 'SPECIAL ITEM' with a quantity of 1.0000 and a cost of 1.50000 USD. A 'Lawson Self-Service Message -- Webpage Dialog' is overlaid on the bottom right, displaying a warning icon and the message: 'Punchout items must be on a separate requisition.' Below the message, it instructs the user to 'Click Stop to return to your current requisition' or 'Click Continue to create a new requisition'. The dialog has 'Stop' and 'Continue' buttons. At the bottom of the main window, there are buttons for 'New', 'Clear', 'Print', and 'Release', along with summary statistics: 'Total Cost: USD 1.50000' and 'Number of Lines: 1'.

Requisition Center Benefits

Allows a company to set up processes that can

- ▶ Eliminate paper-based requisitioning and approval processes
- ▶ Drive standardized purchasing processes
- ▶ Save money by driving compliance to contracts
- ▶ Help bring more categories of spend under management
